A Customs Feasibility Study was conducted prior to the start of the project and finalized in February, 2014. Customs will be a service for aircraft arriving internationally that are based at or destined for BCT. Currently, international arrivals wishing to land at BCT make an interim stop to clear Customs at other airports on their return home to BCT from their international trip. This increases safety and prevents low altitude return flights to BCT from nearby Customs facilities.

A forecasted 700 annual flights will clear Customs at BCT. This is an average of two flights per day. The Study also forecasts 350 boaters annually will clear Customs paper work at BCT. BCT anticipates that the same aircraft currently using BCT will continue to use the Airport. No significant additional traffic is anticipated.

The Customs and Border Protection Facility will total 4,400 square feet. The facility will be open Thursday through Monday from 10:30a.m. to 6:30p.m.

BIDS FOR CONSTRUCTION WERE ACCEPTED	MARCH, 2016
CONTRACT AWARDED	MAY, 2016
CONSTRUCTION BEGAN	AUGUST, 2016
CONSTRUCTION TO BE COMPLETED	SUMMER 2017

The \$4.3 million project is funded by the Florida Department of Transportation and the Boca Raton Airport Authority. No local, county, or state property or sales taxes fund airport operations or improvement projects, such as the CBP Facility.
