

HELPING OUR COMMUNITY SOAR

The Boca Raton Airport recognizes that it is located near noise-sensitive residential communities and is committed to being a good neighbor to these surrounding areas. The Airport is seeing an increase in seasonal flight activity as we are now in the busier winter months. The Airport takes noise abatement seriously and has a robust noise abatement program that consists of voluntary noise abatement procedures, noise monitoring, and flight tracking. If you have any questions regarding the Airport's noise abatement program or would like to report any noise-related concerns, please visit our website or call the Airport's noise abatement number.
