BOCA RATON AIRPORT ADMINISTRATION BUILDING IMPROVEMENTS

PROJECT COMPLETED

General Contractor: Shift Construction & Development

Goal: This update aimed to expand the functionality of the Airport's administration building to include more adequate meeting space.

Start Date: Spring 2024

Completion Date: Spring 2025

Project Funded By: Florida Department of Transportation

Grant Amount: \$216,000

Grant Award Date: December 2022

Project Cost: \$490,050

ABOUT THE PROJECT

WHAT DID THIS PROJECT ENTAIL?

This project entailed expanding the functionality of the building beyond administrative and management offices to include meeting space adequate for public meetings and monthly BRAA meetings. The enhancements also included modifications to HVAC systems to include upgraded filtration and disinfecting capabilities.

WHAT ARE THE BENEFITS OF THIS PROJECT?

The enhanced Administration Building provides the Airport with:

- Cost savings and operational efficiency
- Enhanced emergency preparedness
- A modern multifunctional meeting space
- Improved health and safety standards

WHY WAS THIS PROJECT INITIATED?

The project was initiated with the objective of optimizing the administrative building's capabilities by establishing a flexible meeting and event space that supports operational needs, fosters community engagement, and enhances emergency preparedness. This will enable the BRAA to function more effectively as an Emergency Operations Center when necessary.
